Springfield, Mass.

Gentlemen:

As you may, or may not, know WCSR is the student radio organization at Smith College. We are on a network with the Amherst College radio station and our regular schedule of programs is broadcast over this line. However, several times a year we exchange programs with various other stations - primarily college organizations.

It is about this that I am writing you. I don't know whether you have a commercial broadcasting unit, but if you do have such facilities we are interested in doing one or more shows for you there. We would send several of our members to broadcast a disc jockey program, a special interest show, or something on that order. We could also send a technician, if she can cope with your board.

If you are at all interested in an arrangement of this sort - or perhaps an exchange of some type - this Fall, would you please let me know.

Sincerely,

Jan White
General Manager
